

ALUMIX *Decorative profiles*

**FBS Profilati srl, fondata nel 1999
dalla seconda generazione
imprenditoriale della nostra famiglia,
è un'azienda dinamica che trae la sua
essenza dal concept del "MADE IN ITALY"
tramandato attraverso l'esperienza
delle sue figure storiche che dal 1964
si dedicano con entusiasmo alla
progettazione e produzione di profili
decorativi in alluminio e serrandine.
Nella nostra sede di Settimo Milanese,
che si sviluppa su una superficie complessiva
di 5000 m², creiamo prodotti sempre
all'avanguardia e al passo con le più
moderne tendenze del mondo del design
per arredamento di interni a partire
da materie prime di qualità eccellente.**

FBS Profilati srl, founded in 1999 by the second managerial generation of our family, is a dynamic company that draws its essence from the concept of "MADE IN ITALY" handed down through the experience of senior figures who have enthusiastically committed to designing and manufacturing aluminium decorative profiles and tambour doors since 1964.

In our headquarters in Settimo Milanese, stretching over a 5000m² area, we create forefront and contemporary up-to-date products with modern furniture design trends, exclusively using excellent raw materials.

ALUMIX

Un'ampia gamma di profili decorativi in alluminio per l'industria dell'arredo. FBS Profilati srl produce e fornisce profili in alluminio standard e speciali da catalogo, oppure personalizzati su disegno e specifiche del cliente, anche con caratteristiche tecniche e dimensionali molto elevate.

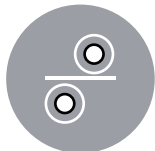

I profili in alluminio piegati a freddo prodotti da FBS Profilati srl sono forniti in più di 20 diverse finiture. Quest'ultime si raggruppano essenzialmente in due macro categorie: le finiture di anodizzazione e quelle di verniciatura. Durante il processo di produzione, la scelta della profilatura a freddo ha permesso di contenere al minimo l'impatto ambientale poiché il materiale viene lavorato a temperatura ambiente senza la necessità di macchinari aggiuntivi.

A wide range of standard and tailor made decorative aluminium profiles for the design industry. FBS Profilati produces and supplies standard and special aluminum profiles, from stock items to completely customized ones according to the customer's design and specifications, even with particularly high technical and size characteristics.

The roll formed aluminium profiles produced by FBS Profilati are supplied in more than 20 different finishes which are divided in two macro categories: anodized or prepainted. During the production process, the choice of environmentally friendly roll forming technology has made it possible to keep the environmental impact to the minimum, since the material is formed in cold conditions without the need for extra tooling.

ISTRUZIONI DI MONTAGGIO *MOUNTING INSTRUCTIONS*

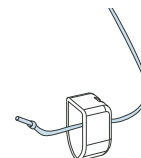

1. Prendere il profilo
Take the profile

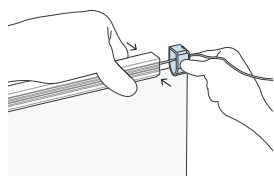

2. Inserire il poster all'interno dell'apposita fessura
Insert the sheet inside the slot

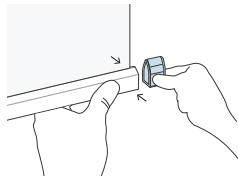

3. Inserire il filo nell'apposito foro dei due tappi superiori
Insert the thread into the designated hole in the two upper end caps

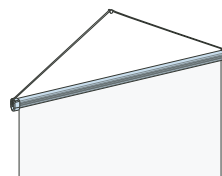

4. Realizzare un nodo all'estremità del filo
Make a knot at the end of the thread

5. Inserire il profilo superiore nei due tappi, esercitando una leggera pressione
Insert the upper profile in the two end caps, applying a light pressure

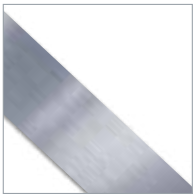

6. Inserire il profilo inferiore nei due tappi, esercitando una leggera pressione
Insert the lower profile in the two end caps, applying a light pressure

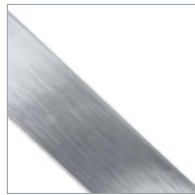

7. Appendere il poster
Hang the poster

All profiles are supplied with a protective film

Specifiche

ALLUMINIO MICROFORATO

Con aperture rotonde e sfalsate, il metallo perforato è un materiale industriale utilizzato in numerosi progetti di interni.

Con la sua trasparenza, il materiale funziona bene con altri elementi e aiuta a creare profondità. È apprezzato soprattutto per la sua qualità grafica e l'effetto ottico che produce quando viene stratificato.

Technical details

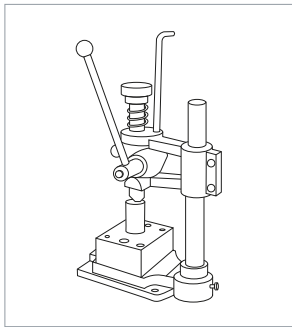

MICRO-PERFORATED ALUMINIUM

With round and staggered openings, perforated metal is an industrial material that is used in a number of interior projects.

With its transparency, the material works well with other elements and helps create depth. It is mostly appreciated for its graphic quality and the optical effect it produces when layered.

TRONCATORI

CUTTING MACHINES

FBS 7700

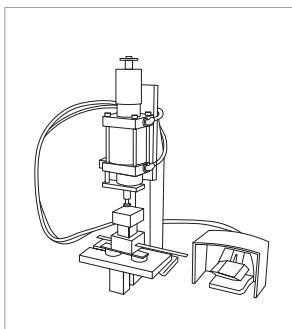

Troncatore manuale per bandelle
Manual cutting machine for strips

Comprensivo di uno stampo a scelta tra
Including a mould to choose from:

FBS 7701 (per troncatura profilo *for cutting profile* FBS 8006 e 2106 90° / R3)

FBS 7704 (per troncatura profilo *for cutting profile* FBS 8008 90° / R4)

FBS 7702 (per troncatura profilo *for cutting profile* FBS 8010 90° / R5)

FBS 7800

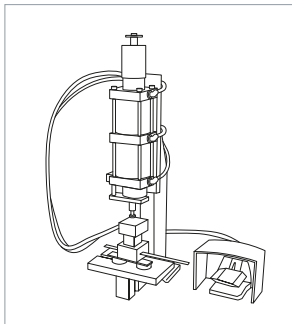

Troncatore pneumatico a un pistone per bandelle
One-piston pneumatic cutting machine for strips

Comprensivo di uno stampo a scelta tra
Including a mould to choose from:

FBS 7701 (per troncatura profilo *for cutting profile* FBS 8006 e 2106 90° / R3)

FBS 7704 (per troncatura profilo *for cutting profile* FBS 8008 90° / R4)

FBS 7702 (per troncatura profilo *for cutting profile* FBS 8010 90° / R5)

FBS 7801

Troncatore pneumatico a due pistoni per bandelle e profili estrusi
Two-piston pneumatic cutting machine for strips and extruded profiles

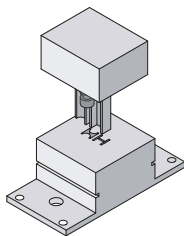

Comprensivo di uno stampo a scelta tra
Including a mould to choose from:

FBS 7701 (per troncatura profilo *for cutting profile* FBS 8006 e FBS 2106, FBS 7106 90° / R3)
